

# Opportunity in Thailand

# POSTDOCTORAL

# FELLOWSHIP

THE APPLICATION CLOSING DATE: 31 JANUARY 2022

The National Science and Technology Development Agency (NSTDA) of Thailand is pleased to announce that we are looking for skilled and enthusiastic postdoctoral researchers from Europe to work with us at our labs at Thailand Science Park.

## Areas of interest:

- Battery, Energy Storage, Material Science, Nanomaterial, Graphene
- A Virtual Environment for Sustainable Data and Tourism- Functional
- Nanomaterials

## Our offer:

The program offers 1-3 years postdoctoral fellowships, reviewed annually. Fellows receive airfare, a fixed annual salary and benefits which include health and life insurance, visa, work permit.

## **NSTDA Postdoctoral Fellowship Program for European Researchers**

**Deadline:** 31 January 2022

**Project duration:** 3 years (minimum 1 year, not more than 3 years)

The National Science and Technology Development Agency (NSTDA) of Thailand is pleased to announce that we are looking for skilled and enthusiastic postdoctoral researchers from Europe to work with us at our labs at Thailand Science Park. Our aim is to develop and enhance research cooperation between Thailand and leading research partners from Europe.

### **About NSTDA Postdoctoral Fellowship Program:**

The NSTDA Postdoctoral Fellowship Program recognizes the importance of international cooperation in supporting the career development of researchers. This program provides postdoctoral research grants for international Ph.D. graduates to gain experience by working with NSTDA's lead scientists in the world-class research environment at Thailand Science Park.

The NSTDA mentors and the postdoctoral fellows will have the opportunity to share and exchange their knowledge and expertise on selected research topics in line with NSTDA's research priorities.

### **Areas of interest:**

1. Battery, Energy Storage, Material Science, Nanomaterial, Graphene
2. A Virtual Environment for Sustainable Data and Tourism
3. Functional Nanomaterials

### **Eligibility**

- Researchers from EU Member States and Associated Countries to the Horizon Europe research funding program
- Age not over 40 years old
- Must have a PhD degree at the time of the deadline for applications
- Must have a maximum of 5 years research experience from the date of the award of your PhD
- Have at least one publication in an international peer-reviewed scientific journal with impact factors, or own a patent
- Be able to conduct full-time research at NSTDA
- A PhD and significant research experience in one of the following fields:

- 1) Battery, Energy Storage, Material Science, Nanomaterial, Graphene

2) Augmented Reality (AR) and Virtual Reality (VR) Technologies to Support the Development of Sustainable Tourism

3) Functional Nanomaterials

#### **Our offer**

- The program offers maximum 3 years postdoctoral fellowships, reviewed annually.
- Fellow will receive one-way economy class air ticket from their home country to Thailand after signing 1st year contract.
- Fellows will receive a return economy class air ticket from Thailand to their home country after continuing their 2nd year contract.
- A fixed annual salary (between 40,000-50,000 THB per month).
- Benefits including health and life insurance, visa, and work permit.

#### **How to apply:**

Interested applicants must submit the following documents in PDF format to NSTDA by email **interfellow@nstda.or.th**

- Fill in application form [here](#)
- Photograph taken within the past 6 months
- A copy of Passport (with original signature to certify the copy)
- Abstract of dissertation
- Curriculum vitae highlighting research experience, including research outcomes, publications in international journals, and/or academic presentations at international conferences
- Copies of educational transcripts and certificates (with original signature on every page to certify the copy)

**All files should be sent in PDF format to [interfellow@nstda.or.th](mailto:interfellow@nstda.or.th) by January 31, 2022. Incomplete or late applications will not be accepted. Selected candidates will be contacted for interview by 28 February 2022.**

#### **Description of the host institution:**

The National Science and Technology Development Agency (NSTDA) was established in 1991, and is a research agency is affiliated with the Ministry of Higher Education, Science, Research, and Innovation. NSTDA is entrusted with the important task of accelerating science, technology and innovation development in Thailand in order to respond to the needs of industry and enhance the country's competitiveness in the global economy. NSTDA's mission is to perform and support Research and Development, Design and Engineering, Technology Transfer, Human Resource Development, and Infrastructure Development. This mission is implemented through working with partners from academic, government, private, and non-government sectors, both domestically and internationally. NSTDA

employs more than 3,000 staff, 70% of whom are research and scientific staff. NSTDA is headquartered at Thailand Science Park located 30 km north of Bangkok
